

What is ezMe[®] ?

- ezMe[®] is an online personal development system especially designed for all those people who are seeking to help young people develop their skills and attributes, for learning, life and work. It has many in-built features that can make self-skill teaching/learning easier for young people, their parents, carers and teachers.
 - ezMe[®] provides the tools to inspire young people to reflect on their own self-skills and their learning and personal development needs.
 - It is designed for young people of 11 years of age or more.
 - It identifies each young person's unique self-skill learning needs and their primary learning style.
 - It helps teachers manage the development of teaching/learning programmes to meet individual soft skill learning needs or for groups of young people with common learning needs.
 - It promotes teaching according to the individual's learning style and needs.
 - It provides a way for teachers to measure the self-skill learning each young person has achieved between agreed start and completion dates.
 - It offers downloadable resources that support parental, teacher and peer mentoring.
 - As a teaching/learning aid, ezMe[®] uniquely connects self-skills assessment, self-skills reflection and development, and study/career choice guidance.
- The ezMe[®] online personal development system is engaging and thought provoking for young people throughout the whole experience.
 - Young people who use ezMe[®] receive a unique profile full of personal insights, which they can use throughout their educational experience to better understand themselves.
 - It helps young people build their self-awareness and self-confidence and can lead them toward more robust, realistic study, career and life choices.
